

'Reality' Doug says:

In a circular last modified 30 Sept. 2013...

Natural Money Is Popular Sovereignty

Don't Wear the Left-Right Strait Jacket

- Confucius say: "If language is not correct, then words are not appropriate; and if words are not appropriate, then deeds are not accomplished." (Analects 13:3)
- Do your eyes glaze over at the mention of economics?—exploitive bankers and politicians like that.
- The (fiat-)gold standard is NOT a freedom standard!
- Stopping (price) inflation is NOT stopping the inflation drain!

Be Aware of the Natural Money Standard

- Natural money is money by freedom of choice, and fiat money is money by government force.
 - U.S. dollars are synthetic, abstract, and superfluous—except as a snare on your money sovereignty and wealth.
 - If a gold standard needs only gold, why force a merchant to not take silver, platinum, or whatever free persons might choose?
 - The only legal tender law should be that government cannot decree legal tender!
- x Let government simply enforce exchange honesty and freedom!

Elite Economics Is Slavery or Worse

- Economics is essentially the study of exchange rates, and that simple truth has been obfuscated to keep you docile.
 - Price inflation only happens when the total wealth and livelihoods of the productive (middle) class are being liquidated.
 - Enslavement is knowingly working for others by external coercion, and domestication is unknowingly working for others by internal constitution.
- x Bankers and bureaucrats have an infinite line of credit on you!
- x Who worthy of freedom will not observe his economic chains?!

Make a Difference

A throng of wise slaves are soon free. Our social techniques must keep up with our material techniques for us to manage and deserve civilized freedom. Yes, there is a personal responsibility, and it starts with responsibility of the mind.

Connect with me using id 'realitydoug' on twitter or at gmail, and let me be your knowledge purveyor of higher order consciousness. Ask for my free ebooklet *Save a Life From Human Domestication in 30 Minutes*. It affords a practical understanding of modern economics in about that much time. I welcome constructive feedback, suggestions, and networking! :-)

The **gold ribbon** represents **natural money awareness**, and NOT a gold fiat standard!

Biography

'Reality' Doug is an independent thinker, researcher, and writer on the subject of functional civility at the nexus of politics, economics, history, culture, and philosophy. He has authored many writings available free online. His nascent programming career was terminated by the dot com boom and bust enabled by the U.S. Congress through the H-1B nonimmigrant work visa program.
